DETAILED ACTION

1. This action is responsive to amendment filed 07/14/2006.
2. Claims 1-21 are allowed.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

The prior art does not teach an image processing method comprising: a window adjustment circuit which sets up an additional window adjacent to a window in which the image data are actually stored in a memory space of said storage circuit and storing therein additional data other than the image data, which adjusts the address generated by said address generation circuit, and which reads out the image data from said storage circuit, including the additional data in the additional window, in response to the address and a read control signal supplied to said storage circuit, writing the additional data other than the image data from external into the additional window in the storage circuit according to a first write control signal; writing the image data at an address location of the image window in the storage circuit according to a second write control signal; wherein the additional data are written in with an address of the additional window.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
